TO WHOM IT MAY CONCERN

Chemtec UK Limited, Willowyard Road, Beith, Ayrshire, KA15 1JH Scotland, a company of **Armstrong Chemtec Group**, is a technology company specializing in Process Heat Transfer.

Armstrong Chemtec Group designs and manufactures robust specialty Heat Transfer Equipment for some of the most demanding and hazardous processes in the Oil Refining, Chemicals Processing, Petrochemicals, Polysilicon & other industries and has supplied the same globally.

The Group incorporates over 70 years of extensive heat transfer experience and exceptional engineering which merge to provide innovative solutions to the most difficult process problems. Heat Transfer Research Inc. (HTRI) correlations, in-house research & testing of its designs and end-product heat transfer ratings has made **Armstrong Chemtec Group** the first choice and expert in the following specialty areas of heat transfer;

- Vaporization of Hydrocarbons, Cryogenic Fluids such as Ethylene and Ethane using Direct Steam Heated Horizontal Vaporizers of both, U Tube and Shell & Coil construction.
- Electric Process Heating.
- Heating of Viscous Fluids using Finned Tube Exchangers.
- UOP & Axens Process Vaporizers.
- Armstrong type Vertical Bayonet Vaporizers for Chlorine and other fluids stored as liquid.
- Crystallization using Double Pipe Scraped Surface Heat Exchangers (Crystallizers).
- Automated Wax Moulding System consisting of Pre-Cooler, Wax Moulding Machine, Refrigeration System and Automatic Packing Line.
- Modular Systems.

We hereby submit that **Chemtec UK Limited**, for and on behalf of **Armstrong Chemtec Group**, has appointed **Bestowed Biz Consultants**, having its Administrative Office at 59-B, GH-2, Ankur Apartments, Paschim Vihar, New Delhi - 110063, India, and Business Operations at BA-48-A, Ground Floor, Janakpuri, New Delhi – 10058, India, as the Group's consulting organization for the Oil & Gas, Petrochemicals, Polysilicon and Chemicals market in India including the End User Clients, the Project Management Consultants (PMCs) as well as Engineering, Procurement, Construction & Commissioning (EPCC) Companies.
